|   |     |              |                |   | With Deboxer | Price       |
|    |     |              |                | <p>Crating TBD/CMV (Prices Subject to Change Without Notice) The Cook &amp; Beals DeBoxer attaches to Cook &amp; Beals Uncapper or it can also stand on its own. Our Deboxer comes with room for one box on each side of the deboxing station. The Deboxer can be fed from either side. The bottom of the incoming box is scraped into a standard wax pan as it is pushed into the deboxing station. The wax pan is included with the unit. The actual deboxing operation is done completely hands-free via the double acting, foot operated air cylinder. The Deboxer can handle either 9 5/8" or 6 5/8" frames.</p>   | Deboxer      | \$6,200.00  |
|   |     |              |                |   | USD          |             |
|  |     |              |                | <p>Crating TBD/CMV (Prices Subject to Change Without Notice) Treat your combs, bees and yourself to the very best Uncapper available. Our Uncapper uncaps combs at the rate of 12 combs per minute or 80 supers per hour. The In-Feed Conveyor holds 2 boxes of combs at a time. The main part of this Uncapper is what we call the "Head", where the cutters and motors are located. The Head is bolted to the top of a four-foot stainless steel tank. The combs are placed in the Head and two silent chains carry them through the revolving cutters, which remove the cappings. The uncapped comb then rests on a chain that slowly conveys it toward the Extractor. The cappings that are cut off, do not fall onto the combs that have been uncapped. As the combs pass through the cutters, they are held in place by a very rigid guide system. The depth of the cutting can be instantly changed; an adjustable slip clutch is provided. The value of this combination is to reduce breakage of frames in case a frame is started crosswise. If this should happen, the clutch stops the chains. The cutters are powered with 3/4 h.p. motors, using belt drives. A stainless steel shield over the cutters prohibits any capping or honey from being thrown out.</p> | Uncapper     | \$29,599.00 |
