Specifications

- height (with cover) 46"
- height (without cover) 38"
- width 48"
- length 54"
- floor to drain (honey) 15"
- floor to drain (wax) 20"
- floor to drain (slum) 21"
- power required 50A 230v AC 60HZ
- heating elements (2) 4500 W
- weight (empty) ~475 lbs.
- Requires ~30 gallons of vegetable-based oil for combined main rear tank (~21 gal), and auxiliary tank (~9 gal).

** We recommend using vegetable-based oil in both the rear and auxiliary tanks. We also recommend replacing the vegetable-based oil in both tanks between every 3-5 years to prolong life of the equipment.

Features:

- Thermostatically controlled heat
- Insulated, aluminum construction for rapid heat transfer
- Includes auxiliary heated double-jacketed tank for wax collection

For optimum results, the Cook & Beals, Inc. Wax Melter is recommended as a companion to the Cook & Beals Spin-Float Honey Wax Separator, which is capable of separating up to 99% of honey from the wax.
